AraClass

Unprecedented quality, process speed and eco-effectiveness.

The new Glasurit AraClass is our most advanced range of products and solutions – delivering a unique combination of quality, process speed and eco-effectiveness. Industry-leading in every sense, AraClass offers a revolutionary new range of clear coats, accompanied by solutions designed to create the ultimate finish while still ensuring sustainability. As a result, all AraClass clear coats are ecoBalance products, certified for significant CO₂ reduction. Highly efficient and innovative, AraClass is set to propel your business forward.

Innovation in a class of its own.

Glasurit AraClass is unlike any other paint system in the world. Every aspect of its creation has been refined to deliver innovations that drive profitability, whilst always ensuring eco-effectiveness.

Innovative performance

The culmination of decades of Glasurit knowledge and expertise, AraClass is a new range of clear coats that are truly unparalleled in the industry. Sustainability unmatched by any other range. Innovation on another level. All leading to the most efficient auto-repair paint process there is.

AraClass

Eco-effectiveness that really is effective

Glasurit stands for perfect quality as well as social and ecological responsibility. Protecting the environment is in our nature. It's why we are reducing CO2 emissions by manufacturing AraClass clear coats based on renewable resources and by providing extremely fast-drying products to reduce energy consumption in the bodyshops. Sustainability is at the heart of what we do and a core growth driver for customers around the world.

Creation with a conscience

For Glasurit, sustainability means aligning economic success with social and ecological responsibility. AraClass is the personification of this belief. We're driven to contribute to a world that provides a viable future with enhanced quality of life for everyone. And so, by making the best use of available resources during the manufacturing process and by replacing fossil resources with renewable ones – we've created one of the most eco-effective ranges in the world. A conscious choice to move forward with a conscience.

Delivering better and more sustainable profitability

AraClass gives your bodyshop an edge over the competition through reduced process times, less complexity and the most advanced service solutions available. After all, streamlined solutions enhance efficiency and in turn drive bodyshop performance. Such efficiencies quickly add up to a clear difference in your success. It means you can grow, become more competitive and at the same time reduce your environmental impact.

The most advanced of everything

AraClass is the distillation of all our most advanced technology, processes, eco-efficiencies and paint science into one world-class range of products. It's the mix of these ground-breaking products and tailored solutions which creates new cutting-edge processes for your bodyshop. And all without ever sacrificing simplicity of use. AraClass really is in a class of its own – empowering you to do the same.

Leading the industry.

Glasurit AraClass products are unparalleled in the industry offering an innovative range of clear coats that deliver unprecedented quality, process speed and eco-effectiveness.

A-C-20 Eco Balance clear coat, universal

A clear coat for universal application, that's eco-effective and incredibly easy to use.
