

# Fun in the Sun with Sports Surface Solutions

## Al Garhoud Park, UAE

### **Project:**

Al Garhoud Park Project

### **Location:**

Dubai

### **Project Completion:**

October 2019

### **Client:**

Dubai Municipality

### **Applicator:**

High Home Technical Works

### **Sector/Surface:**

Playground/Original concrete base

### **Product Function:**

Performance and Aesthetics

### **Products Used:**

Iso 136/49 Aromatic Binder

### **Background**

The client required a sustainable and high-performance material to be applied to the playground. The design fitted to what the client was looking for.

### **Challenges**

The application had to be carried out within a specific timeline with various designs. The delivery of the materials and timing of the application had to be aligned to ensure the project was a success.

### **Solutions**

BASF's Sports Flooring Solution polyurethane system, the most suitable for any applications where EPDM & SBR Rubbers requires firm bonding was proposed for this project.

### **Customer Benefits**

The Sports Surface Solutions system was suited to this application, due to the viscosity of the system. The material bound well to the rubber and applied easily to the surface.

### **Project facts at a glance**

- BASF provided comprehensive technical advice and economical solutions to achieve the required performance.
- Excellent support and guidance from BASF's Technical Services team, including on-site training and periodic quality assessments to ensure application was being carried out correctly.
